ABOUT TOWN. Our thanks are due to the Merchants' Exchange, San Francisco, and Purser Macdonald for full

Saturday last by Mr. A. F. Cooke and will be placed in the carrying trade, so we hear. The Royal Hawaiian Band will give another moonlight concert to-morrow (Thursday) evening, ma Square, at 720 o'clock

Rev. C. L. Hook, of New Hampshire, arrived per steamer Zealandia last evening, and will labor in future as an independent missionary on these

Another addition was made last week, to our coasting fleet by the arrival of the new schooner and coale and to Allen & Robinson. She is a fine coat of about 140 tons burden.

The schooner Wasshu returned to port last week having parted her jib-stay. She met very heavy weather. The Kaima returned leaking but was repaired all right. Heavy weather. The schooner Waissala in coming into port a

few days ago, missed stays and went on the sand-bank near the light-house, she floated off however without injury to herself or cargo of sugar. Cool and strong trades blew the latter part of last week, quickly drying the mud from the streets and bringing color into the cheeks of the children.

February rarely passes without a cold snap; cold for us. Those who are fond of such things will enjoy issiting the collection of shells and other curios trought by the Morning Star, now on exhibition at building on Hotel street near the "Palace."

There is one very fine pair of orange cowries. Monday noon, at the Government Building, was sold the lot adjoining, between the Mochonua premises and Milliam. It is a good sized lot and went for \$300. It was whispered that it might be taken for the new Musical Hall. It would be as

good a location as some which are proposed. Mr. Kerr, the painter, met with quite a severe accident last Saturday. He was driving along Pilkoi street when the bit broke and losing his balance he was thrown from the carriage and in some unaccountable way his leg was broken in several places. At latest reports he was doing well which will relieve his numerous friends.

The Chinese Theater gamblers received instice at the hands of the Police Magistrate on Saturday morning last, in various terms of imprisonment and fines. Now let us have a raid on gamblers somewhat higher than Chinese actors. Kapiolani race-track might be a good place to begin with.

A meeting of the subscribers to the proposed Musical Hall, is called for this evening. There ought to be a good attendance and a harmonious conclusion of debate as to style and location. The building should be both ornamented and useful. Let wise counsels prevail.

It would not be a bad idea for the valiant police o make a general raid on drays or draymen. Our evil got dreadfully frightened and nearly hurt as week by one of "those terrible engines of ction," as our neighbor the Advertiser aptly

At last the bark Kalakaua of opium notoriety has departed. She has been here since early in Nevember of last year and the voyage must have been a very losing one. Her case is not yet finally disposed of and she left under a bond of \$2,500 to alude the final judgment of the Court.

A large collection of corals, shells, neckiaces, baskets, mats and other curies from the Southern Islands were sold by Mr. Bartow on Saturday last. The corals belonged to the delicate pink variety, but they were much broken and there was no other variety. The mats were exceptionally large and fine.

One of the singers at the concert of the Musical Society last Friday evening, after the performance, related a little anecdote about as follows: A woman spoke in one of Beecher's Friday evening prayer-meetings, she was not brilliant and her remarks did not excite much attention. A silence succeeded, which was broken by Beecher's saying "And yet I believe in women's speaking in meetings."

The brilliant moonlight evenings are taken adrantage of by the young people for riding parties.

Last Thursday night one of the military companies went out for a parade and drill upon the plains. They will have to improve their opportunities, for the plains are fast being taken up for A native correspondent of the Knolog writes

with a query as to the meaning of the roast pig dressed in silks and flowers which was apparently adored by the diners on Chinese New Year's Day. He evidently suspects idolatry on the part of the Celestial. They are not all Christians yet. Some good folks adore roast pig. Sunday afternoon a heavy mass of smoke rolled over Oahu from the south or south-east and lay upon the hills and darkened the sky till swept away by the returning trade winds. It looked like

the smoke of 1868, when for three or four days th sun was obscured and the hills shrouded with the e mass from the eruption in Kau. The Young Men's Christian Association meet to-morrow (Thursday) evening at the Ly-ceum. The meeting should have been held last

week but gave way for the rehearsal of the Musi-cal Society. A discussion of the interesting ques-tion of growing importance in these Islands "what is to be done with our poor?" will probably draw One Ah Chit was brought before the Police Court on Monday morning for examination as to his sanity. He was shown to have made several

attempts on his life, by hanging and by poison. He explained his course by saying that his stomach felt rather bad and he had concluded to put an end to it and to himself. His friends promising to have an eye to his movements he was discharged and walked sorrowfully away. The W. H. Meyer, Eureka and Cassie Haywara arrived from San Francisco early in the week. Just out of San Francisco the Eurela met with a eavy blow and to save herself was compelled to ettison her deck load and finally ran for port, but he weather moderating, she put about and con-inused her voyage, and arrived down after an extraordinarily rough passage. She saw other argo than her own floating about, a day or two

after her own jettison. A gentleman who was at Wailupe on Sunday last reports, that with a very light trade or easter-ly wind, about half past one in the afternoon, a dense packed muss or cloud of smoke rolled in from the sea, apparently from the eastward and passing over totally obscured Diamond Head from view. It appeared to pass around to the westward of that point where it dissipated and spread over the hills and covered the town. After this smoke or cloud passed, not a trace of smoky appearance was left, on the contrary the air and sky were perfectly clear. What was it?

The license of the Chinese Theatre Company expired last Thursday evening, much to the regre possibly of our Chinese theatre going public. At any rate the occasion was celebrated by the celes-tial troupe and some of their admirets from town by a grand opium smoke and gambling bout. Just

such as y among whom it is among whom it drive they could enjoy me good and selected and selected

densely crowded, mostly with our Celestial breth densely crowded, mostly with our Celestial breth-ren. The cause soon appeared, when after dis-posing of the ordinary fry, the Marshal sternly ordered up that Chinese crowd, saying "Wikiwiki ana," etc. In a moment a sad looking crowd filed in till all the space behind the bar was filled, and they were charged with "gaming," to which each pleaded not guilty, some boldly, others softly and with downcast eyes. Now and then one would meekly observe "Me no sabbe play card, how can ?"

At the meeting of the Hawaiian Mission Children's Society, (one of the oldest organizations in the country, by the way), last Satuthe country, by the way), last Saturday evening, interesting statements were made of the progress of civilization and Christianity in the Micronesian Islands. Among other significant facts was, that the progress of the manufacture of the progress of civilization and Christianity in the Micronesian Islands. Among other significant facts was, that the people are beginning to desire such clothing as Europeans wear and to regard their own taste for fancy colors as vulgar. Many of our readers will recollect when the native women used to ride through the streets of the town with fancy riding dresses of all colors, beside street dresses of the change which induces them to wear sombre black to day.

The Police Court is often the scene of curious and interesting, or pathetic phases of human

nature. One day last week a very small boy was arraigned on the charge of vagrancy. He looked about like a caged antelope and when asked why he ran away from school timidly replied that his clothes were dirty and the boys made fun of him. Our gentle-hearted and sage Police Magistrate remarked that there was yet hope for that child as be was sensible to the feeling of shame, so brushing away the kindly tear from his eye, he remanded the little boy to the care and attention of Mr. Hill at the Reform School, where his clothes will be kept clean if not elegant. The schooner General Siegel was purchased on

Miss Annis Montague is in San Francisco, and Miss Annis Montague is in San Francisco, and jndging from the tone of the newspapers, she has made a decided hit and is quite a favorite. It is said that during April next she will visit her old home, Honolulu. She left here in April, 1870, and will find many changes, but plenty of warm hearts to welcome her home again. Give her a good home coming. The following is a word from the musical critic of the Call in reviewing the "Chimes of Normandy." "Miss Annis Montague won the audience by her first number, and in two duets with the "Marquise" elicited frequent enthasiasm Her voice is of the sweet and liquid tone which goes right to the heart and is powerful enough for goes right to the heart and is powerful enough for this class of operas."

The genius who tied his horse to an empty barrel on Fort street last Wednesday afternoon, ought to have been the first to congratulate Chief Justice Harris on his narrow escape from severe injury if not death during the general rumpus which fol-lowed. The blustering wind alarmed the horse and he dashed off up street with the barrel swing-ing along, like a tin-can attached to a dog's tail. The unnatural sight frightened the judge's horses and they ran away up street and turning sharply up Hotel street. and they ran away up street and turning sharply up Hotel street, the phaeton was overturned and the judge, who was fortunately the only occupant was thrown out, but continued to hold the reins and finally stopped the frightened animals. Had his presence of mind forsaken him and the reins been dropped, it is difficult to see why the heavy been dropped, it is difficult to see why the heavy carriage would not have been dragged over him. As it is his escape was very narrow. He was somewhat bruised and did not resume his judicial duties till Monday, when he heard an equity case. We unite with the public generally in congratulating him on his escape.

The young Algerobas dotted over the southern slopes of Punchbowl have been making fine growth this winter. Groves of this graceful evergreen, as it deserves to be styled, will soon adorn those barren hill-sides, as they already do so much of the plain. A little care to start a few on the highest points of the slopes would ensure the whole being so covered. It deserves the considera-tion of the citizens of Honolulu how the volcanic tion of the citizens of Honolain how the volcanic hideousness of this hill can be made to contribute as it is capable of doing to the beauty of the city in which it stands. The Algeroba seems to be the only tree capable of flourishing there. Have we no vines that will be a deadly no vines that will brave drought and can nestle on the precipices? The tufts of pill grass which half clothe the cliffs since the rains ought to be pro-tected from goats and other animals.

HAWAII. From Kohala we have the following items: Cornelius Bond, Esq., has been made happy by the arrival of a boy baby.

Mr. Stains returned home on Wednesday's steamer, looking much better than when he left. Halawa Mill began grinding Wednesday, Feb. 18th, and is doing splendid work with promise of better. Dr. Wight's cane is being crushed and

will yield very heavily. Hart's Mill is grinding on Judge Kamakela's cane with ratoons yielding four tons. A flume recently built takes the cane to the mill whereby the cattle are greatly relieved, and the work is better done. Kohala Plantation is grinding and getting the

Mr. Renton's mill was forced to stop work on Wednesday in consequence of breakage of the large cog wheel, but expects to be ready for business in a day or two again. Mr. Hinds' mill is grinding on Mr. Woods' cane

who as usual is making plenty of money. The Star Mill is grinding and in fact Kohala is very busy and turning out lots of sugar.

Akina is building a flume from his cane fields in Niulii to the mill and will save lots of money there-

Butler and Blaisdel also expect to move their cane by water. Thompson and Chapin have got the water out of the gulch on to their land and will by fluming

their cane save one half the expense of getting it to mill. The Kohala Plantations seem to have plenty of water to do so but have not put it to use yet. The schooner Eugenia Briggs on her last trip to Hamakua met with very heavy weather. In land ing some heavy freight an enormous roller took the boat and smushed it into kindling wood against the rock, the crew were saved except one poor fellow who may have been stunned. He was

The wire-rope landing at Honokaa, Hamakua, Hawaii, has been fairly tested last week, when the SADDLE & HARNESS MAKER Lehua, during a stay of twenty-four hours alto-gether, took 1600 packages of sugar on board. The weather was boisterous and a rough sea, and the Lehua had been greatly delayed at all other land-ings, both at Kohala and Hamakua. Without railroad facilities a wire-rope landing seems to be the most practicable means of communication on the windward coast of these Islands, and the expe-rience gained at great expense, proves to be of advantage to the general public.

KAUAI. Paikahawai who has been tried for arson committed at Kapaa was found guilty and sentenced to 7 years imprisonment at hard labor; Namas, gross-cheat, sentenced to 9 months; Lauhulu, stabbing, sentenced to 6 months and a fine of \$50.

Another homicide has occured. It was at Wahiawa plantation owned by Mr. Drier and the Mc Bryde heirs. A Chinaman stabbed his brother who died after a few days. Circumstances indicate a possibility of it being accounted for otherwise than as a cold blooded murder.

The roads on the Island are in admirable condition. The Road Supervisor is the right map in the right place. He seems to know that it is as well or better to go around rather than over the hills. The grades are regular and easy and the road beds well kept. Other parts of the kingdom might take lessons of Kauai on the road question.

The Spring Term of the Supreme Court has been The Spring Te rm of the Supreme Court has been sitting at Lihne, Justice McCully presiding. The business was disposed of with celerity. The two homicide cases were transferred to Honolulu for trial in April next before the Supreme Court. District Judge Lilikalami of Kawaihau was brought before the Court on a writ of mandamus in the case of a Chinaman who was convicted before him last September and who duly appealed, but has in spite of the appeal been kept in jail ever since. The appeal was ordered sent up by the Court. It is time that this parody on a Judge was stopped. Lilikalami has won for himself the contempt of Eauxi people.

By the arrivals of the brig W. H. Meyer and barkentine Eureka, dates to February 7th have been received, five days later than by the mail steamer from the south.

Pacific Coast Items. The Alia of the 2d publishes a valuable list of marine disasters for the year 1873, connected with the Pacific coast. It shows an increase in loss of life and property over 1878. Well directed efforts are making to try cane growing in the San Juaquin Valley. Experiments are making with Hawaiian Island, Panama and

disiana varieties. The magnificent church of St. Ignatius (R. C.) was dedicated or consecrated on the lst with imposing ceremonies. Clergy from all parts of the State were present. An informal canvass of Republicans in California indicates a preference for Blaine as next President, Small pox continues to agitate San Francisco.

It is not spreading particularly but a case occasionally breaks out. Enstern States, New York, February 6th;—After the recent sale on the Stock Exchange of 50,000 shares of Central Pacific stock, some of the buyers claimed that they were entitled to a declared dividend of 3 per cent,, which was payable on February 1st. The claim was referred to the Arbitration Committee of the Stock Exchange, which to-day decided against it.

against it. The Daily News says that James R. Keene, it is announced on good authority, is preparing to send for the relief of the distressed people of Ireland, a ship-load of grain as his contribution.

Washington, February 1st.—Representative Davis has recently come into possession of important information, showing that the continuance of the existing line of steamships between San Francisco, the Sandwich Islands, New Zealand and of the existing line of steamships between San Francisco, the Sandwich Islands, New Zealand and Australia, is seriously imperilled by the charge of about \$100,000 per annum, made by our Government for the transportation of the Australian closed mails across the continent, and he is, therefore actively interesting himself to induce Postmaster-General Key to reduce this charge for transportation, or, if possible to relinquish it wholly. It appears that the British Government viewing with jealousy the profits derived by our people, not only from the transcontinental travel, but more especially from our trade with Australia and New Zealand—which now pays us a cash balance of about \$5,000,000 per annum—has already taken steps to divert this travel and trade to England, via the Suez Canal. For this purpose a fast steamship line has been subsidized, touching at Ceylon and carrying the English mails, via the Suez Canal and Brindisi (no mails being sent now via the Southampton steamers), and the rate of postage by the new line has been reduced to seven pence, with a prospect of further reduction: and as an additional means of detaching New South Wales and New Zealand from the support of the line to San Francisco, and thereby breaking it down for continental transportation a subject of persistent commeliant to the Previous of the support of the previsited commeliant to the Previous of the support of the previsited commeliant to the Previous of the support of the previsited commeliant to the Previous of the support of line to San Francisco, and thereby breaking it down for continental transportation a subject of persistent complaint to the Provincial Governments, and threatens to add it to the heavy burdens which they already sustain, in the payment of \$450,000 annual subsidy to this line, which is morer perhaps, for our profit than their own, as we derive the largest share of the benefit from their trade and travel, and pay nothing whatever to the steamships for carrying our own mails, except the beggarly amount of the sea postage. It is believed that Postmaster-General Key, in view of his recent recommendation for the establishof his recent recommendation for the establishment of ocean postal lines by grants of liberal compensation, will regard this foreshadowed suggestion with great favor, especially as there seems no reason that the present governmental charge for transporting the Australian mail across the United States in United States is largely in excess of what it really

RICHMOND, Va., February 6th.-Parnell spoke to benefit of their new traction engine, which hauls the cane in good shape.

**Richard No., Ya., February 6th.—Parnell spoke to 400 people this evening. His reception was not enthusiatic. Orrawa, February 6th,—The Royal party were hansomely received upon their arrival.

South America. Rio Janeiro, February 1st.—Yellow fever has broken out at several places in Brazil. Up to the present time the epidemic has appeared in a mild form, but fears are entertained that it may spread to Rio Janeiro.

Four hundred bandits, having expelled the authorities from Jannaria, in the province of Minas Geraes, sacked the town and burned 22 houses. They threaten to attack other towns. February 6th.—Private advices estimate the cot-ton crop at 4,250,000 bales. The coffee crop is re-ported good and abundant.

Valparatso, February 1st.—The Chilean forces have occupied lio and Moquegus, taking the garrison of the latter place prisoners. The Peruvian authorities of Moquegua were also captured and Chilean authorities appointed in their stead.

CARD TO THE PUBLIC GEO. F. WELLS BEGS TO OFFER HIS SINCERE THANKS the rapidly extending patronage that has been him by the inhabitants of these Islands, and

ouered him by the innabitants of these islands, and takes this opportunity of informing the public generally that he has determined, in accordance with the SPIRIT OF TIMES, to prove to the utmost the Full and Actual Value of the CASH BOLLAR. For this purpose he has leased the large premises adjoining his Music Store, and has filled the same with a Large and Varied STOCK OF NOVELTIES Of every conceivable kind and description selected from the Eastern Markets with taste and care. Bought at the lowest cash prices, in large quantities, direct from the manufacturers, he now offers each and every article in

For One Dollar! It is a matter of impossibility for people who have therto bought goods here to realize the tremendous forence in the value of what they have got said what they have got for the READY CASH DOLLAR! It the stabborn facts remain that what is now selling

Bought for Cash, Sold for Cash, No Bad Debts, No Losses, No Interest on Money, And the Motto of the Store is, "SMALL PROFITS AND QUICK RETURNS.

To attempt t describe the varied beantles or excellencies of this stock would be impossible; but for the purposes of ordering, Geo. F. Wells has completed a Catalogne which he thinks and hopes will prove beneficial alike to Buyer and Seller. One thing he guarantees—

EVERY ARTICLE IS SENT OUT IN PERFECT ORDER Every article is exactly as described in the Catalogue, and will be readily exchanged if not approved of. The Catalogue will be added to by every mail, and as fresh noveities arrive the public will be notified of the fact. OUR DOLLAR CLUB.

We have already been met with the objection that in-dividuals wanting one or two articles cannot get them in remote districts without much trouble and expense, and to obviate this difficulty we have devised the following scheme:

Any number of persons desiring ten or more articles shall select from the Catalogue the Goods they require, and send their order, with the Cash, and directions to pack and forward to a directed person. This shall be done, and to the so named person the goods shall be boxed and packed, with the additional Bonus of ONE EXTRA ARTICLE IN EVERY TEN, as selected to reasy them for the trouble of deliverior, such tables. repay them for the trouble of delivering each to its re-spective owner. To prevent disappointment in ordering, it will be necessary to mention the articles specially de-sired, but to add an extra number to the list, to substi-tute, should any be out of stock at the time of ordering, Don't fail to send to Geo. F. Wells for Catalogne and Price List.

GEO. F. WELLS' GENERAL MUSIC STORE IT IS PROPOSED TO HOLD A BAZAAR at the Lycenm (by the kind permission of Mr. J. T. portant business of MUSIC IN ALL ITS BRANCHES,
As is the only importer of the celebrated Weber Piano,
Grand, Square and Upright, the purest toned, most elegantly finished, and most brilliant Instruments ever introduced into those Islands. These instruments he offers
at the following prices: 8473 TO \$1,000. San Francisco prices for the same Plano, \$500 to \$1,201.

Now, the Weber Piano imported from New York to
San Francisco costs, freight. \$75

From San Francisco to Honolulu. 15

Total. \$90

We import direct from New York, freight \$15; the San
Francisco Importer wants as profit, that we save, say 15
por cent. Thus we can save at least \$150 on the lowest
quality, and more in proportion. Figures talk! All we
ask is, come and see the instrument.

NOVELTIES. The greatest noyelty ever introduced into these music oving Islands, was patented and introduced lately as the

And is constructed on the principle of a Caoline Organ, and can be operated upon by any one, even a child, utterly anacquainted with music. There is no limit to either kind or quantity of music. It will play Hymn Tunes, Popular Airs, Quadrilles, Polkas, Walfzos, etc., with a clearness and accuracy which fow performers can equal and can be carried under the arm. The ORGUI-NETTE, with its automatic music sheets, represents both organ and organist, music, musician and music beacher, and is admirably adapted for singing parties, dancing parties, evening entertainments, surprise parlies and educational purposes, and is therefore.

The Most Wonderful Mechanical Instrument ORGUINETTE,

The Most Wonderful Mechanical Instrument of the Age.

The music can be changed instantaneously. The sets of Quadrilles and other pieces are complete in quantity, and mathematically correct in time; and as all the changes of sigures are printed on the sheet, any one, even a child without ear for music or musical knowledge, can provide the music, do the prompting, and so far take the place of professional musicians as to call forth the lament—"our secupation is gone." Musicians are not everywhere available, and very few can afford to engage them when they are available. The amount usually paid them one night will buy our Orgainsette, and Music enough for every night in the year, without the unpleasantness and restraint caused by the presence of strangers. The trifling cost of the music, the compact and convenient method of keeping it, and the conomy of the whole arrangement, places the Orguinette over five hundred per cent, above any other mechanical musical instrument in the world.

We purpose selling these Wondrous Mechanical Musical Instruments at \$25 to \$50 each, and the Music at 12% cents per foot.

Special Notice. Geo. F. Wells begs to notify the inhabitants of Hono-du that he has purchased, under very peculiar circum-ances, a manufacturer's stock of highly finished, well

signed add elegantly manufactured HOUSEHOLD FURNITURE At a large discount from the prime cost for cash. Having no space for this class of goods, he will sell at once to the earliest bidder these goods at prices hitherto unprecedented at the lowest or most rulnous of auctionsales. THE AMERICAN SEWING MACHINE Seven Thousand Five Hundred Dollars worth of American Sewing Machines sold here in less than Two Years. No greater proof of the value of an article than its steadily increasing sales. In all this large number only one has been returned for repairs.

All our Machines Fully Warranted for 5 Years It is not our object to state that it is the best machine in the world; but in justice to it, and our integrity, we know of no superior for Family use. We do not push the sale of these Machines, but keep a full assortment at our Ware Rooms, and respectfully call your attention to the fact. We hope you will call and examine the superior merits of this Machine which has become so improved your propular. It merits are: sely popular Its merits are: mplicity of Construction; Few parts, which ob-es the possibility of getting out of order, and the plicity of threading, which at once commends it

Important Notice. In conclusion, I would draw your attention to the fact that, mine being the only Music Store in the Kingdom, my facilities for getting the Newest and Best Selection of Goods appertaining to Musical Instruments and Music in all its branches, are superior to those of any other Importing House on these islands; and as my expenses are small, I can and will give a larger assortment, and at Lower Prices, than any other Importing House in this Kingdom.

HEREBY GIVE PEBLIC NOTICE THAT I have appointed ON CHONG & CO. as my Agents to transact all business arising from the renting of Real Estate owned by me, during my absence from this Kingdom. UTAL.

FISHERIES! NETS AND SEINES We offer to the Hawaiian Islands Cotton Fish Nottings An article in universal use in the United States, and be-coming so in Europe. It its lighter than hemp, easier to haul and more durable, and is especially suited to the Eisheries of the Pacific Islands. A piece of 15 pound Cotton Netting (corresponding to the 30 pound sine En-glish hemp), 2% inch mesh of \(\frac{1}{2} \) inch square, 100 fath-oms long and 100 meshes wide, is estimated to weigh 120 bes, against 180 lbs, hemp. Cotton is the lowest in cost, and on the average wears one-third longer than hemp. hemp.
Our friends Messrs. C. Brewer & Co. will forward any orders fisherman are disposed to leave them for
